Commercial Grade Wheel Balancers

TOP MOUNTED DIGITAL DISPLAY BOARD

The PSE WB-160 has a digital display board that shows system status. This display also allows operators to enter the specs of the wheel being balanced and informs how much weight to use and where it needs to be placed to balance the wheel.

LARGE WHEEL WEIGHT & TOOL TRAY KEEPS EVERYTHING YOU NEED WITHIN REACH!

The PSE WB-160 has a large tray on top of the machine that has storage compartments for wheel weights and balancing tools.

OPTIONAL ACCESSORIES:

WB-WSH

Wheel Safety Hood

The WB-WSH Wheel Safety Hood provides extra protection for operators while balancing wheels. Mounting Kit is included, fits the WB-160 & WB-260!

PSE WB-TA

Truck Adapters

The PSE WB-TA Truck Adapters enable either the PSE WB-160 or PSE WB-260 to balance most ¾ TON or 1 TON truck rims. The extra wide spacer ensures that the wheel will not contact the side of the Wheel Balancer.

PSE WB-TA XLT

Extra Large Truck Adapters

This set of Balancing Adapters is made for balancing extra large truck rims that the PSE WB-TA is not large enough to handle.
